The Department of Computer Science at Aarhus University

How to get here

01

Step 1 –Reaching Aarhus

If you arrive by train, check out dsb.dk and arriva.dk to find the departures that fit your circumstances the best. Your train stop will be Aarhus H, located in central Aarhus. If opting for a bus, midttrafik.dk will show you the regional routes.

If you travel by plane, you have three options:
Aarhus Airport is situated closest to Aarhus, but it's small and only has a few connections. Transportation time to the city center is approximately 45 minutes by bus.
Billund Airport is bigger and has more connections. The transportation time to the city center by bus is approximately one hour and a half.
Copenhagen Airport has lots of connections. You can continue to Aarhus by domestic flights or by train. Flight time to Aarhus Airport is 40 minutes, but train is often easier. The direct train ride is about three and a half hours.

If you are driving, you can find free parking spaces in the streets around the department, or at the nearby shopping mall Storcenter Nord.

02

Step 2 – From the city center to the Department of Computer Science

When you have reached Aarhus, it is time to head towards the final destination: **Department of Computer Science, Åbogade 34, 8000 Aarhus C**.

Aarhus is highly walkable, and walking to the department will take around 40 minutes. Alternatively, you can catch one of the many city busses.

The apps "Rejseplanen" and "Midttrafik" can help you find relevant busses to quickly get from A to B. The bus 2A drives regularly and will often be the best choice. If you do not have the electronic ticketing card "rejsekort", you must buy your bus tickets using the "Midttrafik" app.

Step 3 –Finding the right building

Now comes the tricky part: finding the right building, entry, and room.

Below is a map of the department with all buildings and relevant entries listed. Many buildings are interconnected.
Please note that some doors can only be accessed by using a code and a key card, while others are open to all from 8 am to 3:30 pm.

Once you are in the right building, the first cipher of the room number indicates on what floor the room is located.

if you need further help, you are always welcome to go to the information office in Ada-116.
